CEMETERY

Angels of Snow Hill Cemetery Preservation Project Mebane, North Carolina

Snow Hill Church Cemetery is undertaking a preservation initiative to reset and stabilize historic headstones that have shifted or sunk over time. To complete this work safely and effectively, the project requires the purchase of a **stone-lifting tripod**, a specialized tool used to lift heavy headstones without causing damage.

Many headstones in the cemetery are unstable due to soil erosion, age, and weather exposure. Without proper equipment, volunteers cannot safely reset these stones. Attempting to lift them manually risks injury and potential breakage of irreplaceable markers.

The tripod will allow volunteers to lift and reset stones weighing 200-1,000 pounds using controlled, preservation-approved methods. This equipment is essential for protecting the cemetery's historical integrity and ensuring long-term preservation.

Budget:

- Stone-Lifting Tripod: **\$750-\$1,500**
- Shipping/ Accessories: **\$50-\$150**
- Total Request: **\$400-\$1,750**

To ensure this equipment can be purchased and deployed in time for upcoming preservation work, funding is requested by *January 31, 2026*.

This equipment will support the preservation of:

- Veterans' graves
- Founding families
- Historic community members
- Genealogical records

The tripod will be used for ongoing restoration for many years.

Once purchased, the tripod requires no maintenance beyond basic care. It will serve as a long-term asset for cemetery preservation.

We respectfully request funding to purchase this essential equipment and support the preservation of our historic cemetery.
